

Franciscans from the Province of St. Barbara Releases Names of Friars Credibly Accused of St. Abuse of a Minor Since 1950

Today the Franciscan Friars of the Province of St. Barbara releases a list with the names of friars with credible accusations of sexual abuse against them going backlist is being published as part of our continuous commitment to transparency and accountability. We are determined to demonstrate, through this action, that we committed to helping survivors and their families heal. The victims, their families, and the People of God deserve transparency.

We are aware this may bring back painful memories to victims and their families. To all those victimized by a friar, I profoundly apologize personally and in the nar friars. To the families, supporters and advocates of those victimized, I would also like to apologize to you for the pain caused to your loved ones. There is nothing I will change the past. It is inconceivable to me that a friar could abuse the trust of a child, but this is exactly what happened.

Established in 1915, the Province of St. Barbara has a presence today in the States of Arizona, California, Oregon, and Washington. We have a variety of ministries i parishes, retreat centers, social center dining rooms, and are also involved in education. Many brothers work in specialized ministries in service to the poor and m While the vast majority of Franciscans are not on the list, it is important that parents, and society in general, feel that their children are safe in our ministries, parisl places where friars live and work. We are committed to the safety and welfare of those most vulnerable in society.

Heightened public awareness of the tragedy of sexual abuse of minors in our Province came in the early 1990s from St. Anthony's, our minor seminary in Santa Ba those early days, the friars have worked to help with the healing process for those who were abused and for the protection of children. The Franciscans have a zero policy for those with credible accusations, and no Franciscan with a credible accusation is allowed to minister in any way.

We have reviewed our files and have included names of those with credible accusations involving minors. An allegation is deemed "credible" if there is a preponde evidence that the allegation is more likely true than not after investigation.

It should be noted that in each evaluation of an accusation the benefit of any doubt was given to the victim. It is our belief that almost all victims are trustworthy a the truth. In almost all cases if there was an allegation made directly by a named minor(s), or multiple allegations over time with no victim named, the friar's name in the list even when other factors might not support the allegation(s).

While every effort was made for us to have an accurate and complete list, we realize that an offender's name might have been incorrectly omitted from this list. If y of any discrepancies, please contact our Victims Assistance Coordinator, Angelica Jochim at 1-800-770-8013 or angelica.jochim@gmail.com and we will update the needed. Likewise, in our attempt to be transparent, we are having external professionals review all our files so that if additional credible accusations are uncovere names will also be added to the list.

In releasing these names, I hope that in some small way it helps to bring healing to the victims and their families. I again ask for forgiveness from them and also free People of God. Let us put our trust and hope in the Lord, who brings light to the darkness and hope to all.

Sincerely yours in Christ,

Father David Gaa Provincial Minister Province of St. Barbara
